

# inPerson

A schedule-sharing web app for Princeton students

Alice Gao, Michael Peng, Anna Qin, Ioana Teodorescu

# The Problem

Feel like ive shown everyone my schedule multiple times but here it is

Y'all lunch at Thursday 12:30? bc I have class then I literally sent y'all my schedule

Wait pls send your schedules

if everyone could please fill out the whentomeet before this afternoon, that would be great

<https://www.when2meet.com>

guys pls fill this out

Below are the proposed time slots for this event. Paint over all that are good for you.

Post schedule here!

As promised, please fill out this WhenIsGood for our 1st meeting next week:

# Our Solution - inPerson

- <https://nperson.herokuapp.com/>
- A schedule-sharing app for Princeton students!
- Add events and classes to your calendar
- Send follow requests to friends to view their calendars

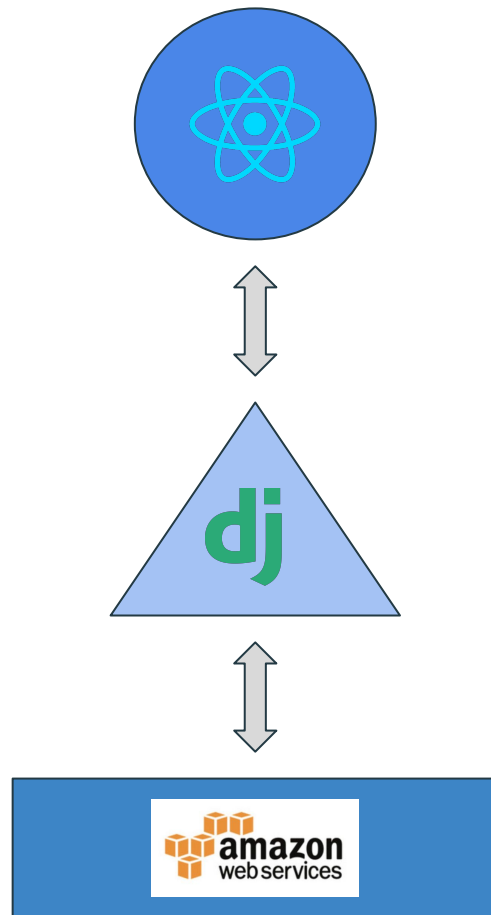

# Demo Time!

# Architecture

- Front end
  - React.js
  - Material UI
  - DevExtreme
- Back end
  - Django
- Database
  - PostgreSQL
  - Hosted on Amazon Web Services

# Challenges

- Developing the back end on Windows
- Choosing appropriate libraries
- Integrating front end and back end systems

# Future Development

- Add a groups model
- Add one-time events
- Add blocking functionality
- Google calendar integration

# Acknowledgments

- Prof. Brian Kernighan
- Allison Chang (TA advisor)
- Lance Goodridge (TA)
- John Suh '20
- Victoria Pan '21
- Early testers
